SURFACES FOR ULTIMATE DESIGN PROJECTS

Surfaces play a crucial role in the success of any design project. The right surface can enhance the visual appeal of a product while also providing functionality and durability. Hence, you must consider factors such as texture, color, and material when selecting surfaces for their projects. Additionally, the surface should also align with the overall design aesthetic and brand identity.

EXTRA SIZE EXTRA BEAUTY

Large tiles are a stunning choice for any space. Their grand size creates a seamless and elegant look that adds a touch of sophistication to any space. Additionally, these tiles can help make a small space appear larger, as there are fewer grout lines to break up the visual flow.

SEVERAL POSSIBLE APPLICATIONS

PULIDO

Possible applications for tiles with a PULIDO surface for flooring are endless. The polished finish adds a touch of elegance and sophistication to any room, making it perfect for high-end residential or commercial spaces.

LEGACY

Legacy surface tiles are ideal for creating a warm and inviting atmosphere in any space. Their textured finish adds depth and character to walls, making them perfect for accent walls or feature pieces.

LEATHER

Leather surface tiles are a unique and stylish option for walls. They add texture and depth to any space, creating a warm and inviting atmosphere. These tiles are also perfect for creating accent walls or focal points in a space, adding a touch of luxury to your home or office.

SATIN

Tiles with a satin surface are ideal for creating a warm and inviting atmosphere in any room. This finish is perfect for walls, as it adds texture and depth without being too overpowering. It can also be used for decorative furniture, such as accent pieces or tabletops, to create a subtle yet stylish look.

TECHNICAL FEARTURES

Water Resistant
Surface

Hygienic and
Suitable for
Contact with Food
